

Gas Control with *Flame Supervision Device* **Type F**

شیر ترموکوپل دار سماوری - بخاری مدل F

- **Approval reference:** full CE Approval (European Approval)
- **Applicable standards:** EN 126
- **Use in gas appliances for:** domestic gas fire, heating
- **Maximum performance per hour with $\Delta p = 3\text{mbar}$:** $0.53\text{ m}^3/\text{h}$ on air
- **Max. operating pressure:** 50 mbar
- **Max. operating temperature:** 80°C
- **Gas inlet:** G 1/4"-19 for 8mm compression
- **Gas outlet:** G 1/4"-19 for 8mm compression
- **Leakage rate:** $\leq 20\text{ cc/h}$ (P=150 mbar)
- **Torsion:** 7 Nm for 10 sec
- **Installation position:** universal
- **Special desings and special connections:** available with a range of flow rate drilling to cover both natural and LP gases
