

## **411 TW**

### Gas Control with *Thermostatic valve*

- **Approval reference:** CE Approval (European Approval)
- **Applicable standard:** EN126
- **Functional characteristics:**
  - Operational temperature: 125-275° c
  - Max. bulb temperature: 300° c
  - Max. operating pressure: 65 mbar
  - Gas inlet: DN 8
  - Gas outlet oven & grill: G 1/4" or M13\*1
  - Operating torque: ≤0.6 N.m
  - Operating force: ≤45 N
  - Internal leak: ≤20 cc/h (p= 150 mbar)
  - External leak: ≤60 cc/h (p= 150 mbar)
- **Magnet:**
  - Holding current: ≤180 mA
  - Release current: ≥60 mA
  - Installation position: Inlet connection with two screws (M5\* 0.8)
  - Thermocouple connection: M8\*1
